

ADITYA

Contractor | Engineer | Fabricator
Aditya Enterprises
Aditya Vardhana Multiservices Pvt.
Ltd.

Where Engineering Meets Execution.

Aditya Group is a Lucknow-based engineering, fabrication and infrastructure development company delivering high-performance steel structures for government and private sector projects across North India.

Operating since 2015, we specialize in Pre-Engineered Buildings (PEB), Building expansion, warehouses, foot over bridges, and large-scale retrofitting projects. We function as both a fabrication powerhouse and a Government-approved contractor.

With in-house manufacturing, skilled engineering teams and an execution-driven approach, we are trusted for projects where continuity of operations, structural precision and safety cannot be compromised.

End-to-End Project Execution Model

Engineering • Fabrication • Civil Construction under One Command

Structural Audit, Survey & Design

- RCC capacity, foundations & load path assessment
- Site survey & feasibility analysis before execution

Engineering Coordination & Approvals

- Detailed drawings, design calculations & method statements
- Government & consultant coordination for statutory compliance

Fabrication & Civil Interface Execution **Live-Site Construction & Handover**

- In-house fabrication with parallel civil strengthening works
- Seamless steel-RCC integration under single command
- Phased execution in operational buildings
- Zero-disruption delivery with real-time safety & QA monitoring

WHY LEADING INSTITUTIONS CHOOSE ADITYA

Engineering • Fabrication • Civil Construction under One Command

1. Integrated EPC Execution Model

We operate as a single-window execution partner — combining engineering, in-house fabrication and civil construction under one command. This eliminates multi-vendor coordination failures and compresses project timelines.

2. Government-Approved Contractor with Institutional Experience

Our team is trained to work within public-sector compliance frameworks, hospital campuses, educational institutions and live operational environments where safety, approvals and accountability are critical.

3. Zero-Disruption Project Delivery

We specialize in executing structural expansion and retrofitting projects inside running hospitals, colleges and factories — ensuring business continuity without shutdowns.

4. In-House Manufacturing Power

With advanced fabrication infrastructure, robotic welding, CNC bending and precision cutting facilities, we maintain strict quality control and delivery reliability without dependency on third parties.

5. Civil & Structural Coordination Expertise

Our projects involve seamless integration of steel structures with RCC systems — foundation strengthening, column jacketing, deck slab expansion and load redistribution executed through coordinated design and site control.

6. Safety, Compliance & Accountability

From statutory drawings to phased execution methodology, we follow a compliance-first approach — ensuring documentation, safety audits and handover quality meet institutional standards.

KEY PROJECT CAPABILITIES

Aditya Group delivers technically complex infrastructure projects across healthcare, industrial and institutional sectors. Our expertise spans structural steel, RCC integration and government-approved civil execution, enabling us to undertake live expansions, retrofitting works and greenfield developments with absolute execution control.

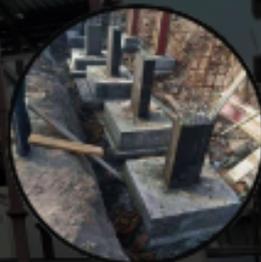

Deck Slab Floors

Pre-Engineered Buildings (PEB)

Warehouses & Industrial Sheds

RCC Work

OUR INFRASTRUCTURE & MACHINERY

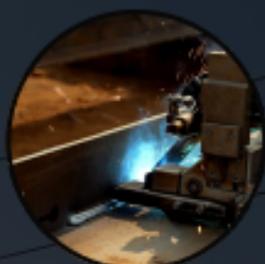

**52,000 SQFT INTEGRATED
FABRICATION FACILITY –
FABRICATION CAPACITY:
400+ MT PER MONTH**

PLASMA CUTTING

LASER CUTTING

ROBOTIC WELDING

SAW-WELDING

MIG WELDING

HYDRA CRANE

GOVERNMENT-APPROVED CONTRACTOR | IN-HOUSE FABRICATION | ZERO-DISRUPTION EXECUTION

MAJOR CLIENTS & TRUSTED PARTNERS

Serving Government, Healthcare, Education & Industrial Institutions Across North India

For over a decade, Aditya Group has been a preferred engineering and infrastructure partner for leading hospitals, educational institutions, government bodies and private enterprises. Our repeat clients trust us for mission-critical projects where safety, approvals, timelines and operational continuity are non-negotiable.

GOVERNMENT-APPROVED CONTRACTOR | IN-HOUSE FABRICATION | ZERO-DISRUPTION EXECUTION

OUR PROJECT EXECUTION IN ACTION

Engineering. Fabrication. Civil Execution — Delivered Seamlessly.

G+7 FLOOR FIRE RAMP AT
LOHIA HOSPITAL- 130 MT

15000 SQFT FACTORY AT
NADARGANJ - 70 MT

HPCL BIOGAS PLANT AT
BADAUN - 150 MT.

20000 SQFT WAREHOUSE AT
HARDOI - 65 MT

32000 SQFT WAREHOUSE AT
BIJNORE ROAD - 110 MT

DUPLEX A-SHAPE COTTAGE AT
MUKTESHWAR IN LGSF

PRE-ENGINEERED FLOOR
BUNGLOW AT AZAMGARH

TATA SMART ITI LAB AT
14 DIFFER LOCATIONS

GOVERNMENT-APPROVED CONTRACTOR | IN-HOUSE FABRICATION | ZERO-DISRUPTION EXECUTION

OUR PROJECT EXECUTION IN ACTION

Engineering. Fabrication. Civil Execution — Delivered Seamlessly.

28MTR FOB AT
RUDIAN RAILWAY ST - 78MT

EXT 3RD TO 5TH FLOOR AT
HIND MEDICAL COLLEGE - 260MT

EXT 4TH TO 6TH FLOOR AT
HIND MEDICAL COLLEGE - 350MT

G+3 DECK BUILDING AT
AYODHYA ROAD - 280MT

G+3 DECK BUILDING AT
NOIDA - 220MT

EXT 5TH TO 8TH FLOOR AT
CENTRUM HOTEL - 260MT

G+2 DECK BUILDING AT
NOIDA - 290MT

PP-SHELTER AT
VARIOUS RAILWAY STATION

GOVERNMENT-APPROVED CONTRACTOR | IN-HOUSE FABRICATION | ZERO-DISRUPTION EXECUTION

Let's Build Your Next Project Together

Contractor | Engineer | Fabricator
Aditya Enterprises
Aditya Vardhana Multiservices Pvt.
Ltd.

We are a government-approved engineering and construction company delivering integrated steel, fabrication and civil infrastructure projects across hospitals, educational institutions, warehouses and industrial facilities.

From structural audits to final handover, we execute every project under a single command system ensuring safety, quality and zero disruption.
